Shining a light on eco-friendly packaging

OSRAM premium quality lights are renowned for enhancing road safety and protecting your reputation in the automotive industry. Now, we're doing more to help protect the environment with plastic-free packaging for our entire lamp portfolio.

Considering your needs, your customers, and our commitment to combating plastic waste, our LED, halogen, and xenon lamps will now be packaged in 100% plastic-free, recyclable materials, made from recycled resources.

The products haven't changed in any way, and neither have their prices, but this packaging upgrade goes a long way. Even without plastic, our new boxes and blisters provide the same excellent protection for the lamps inside.

The lamps themselves are no longer visible, but the bulbs are depicted in actual size on the cardboard box along with all the information you and your customers need.

3 NIGHT BREAKER® SILVER

The OSRAM performance halogen light with best lifetime

With NIGHT BREAKER® SILVER, OSRAM offers a performance halogen automotive lamp with an optimized lifetime. OSRAM NIGHT BREAKER® SILVER generates up to 100% more brightness compared to the minimum legal standard and a beam which is up to 130 meters long. This allows you to see road signs, obstacles and hazards sooner and the driver is left with more time to react. In addition to this, these automotive lamps have a convincing price-performance ratio and a modern design with an attractive silver cap (H4/H7/H11). The perfect choice for drivers who place high demands on performance and lifetime.

Up to 130 m long beam:
Better visibility.

10 SUPER BRIGHT PREMIUM¹

The high-wattage off-road light with extra power

SUPER BRIGHT PREMIUM are high-wattage off-road lamps with extra power. Those rugged and versatile lamps provide excellent brightness even on the most difficult terrain: rescue services, construction and transport work, agriculture and forestry. These products are not ECE-approved and must not be used on public roads in any exterior application. Use on public roads will invalidate both the operating license and insurance coverage. Some countries prohibit the sale and use of these products.

Excellent brightness:

More light allows to see farther and therefore react sooner.

Rugged and versatile:

Solution for even the most unusual requirements.

¹ These products do not have ECE approval and must not be used on public roads in any exterior application. Public roads use leads to cancellation of operating license and loss of insurance coverage. Several countries forbid sale and use of these products. Please contact your local distributor for further information.
