RoHS Directive 2011/65/EU

The image sensors manufactured by CMOSIS Germany GmbH fulfil the RoHS Directive 2011/65/EC and contain no flame retardants or heavy metals in concentrations above the permitted limits, which complies with the directive mentioned above.

Furthermore, our manufactured packages and printed circuit boards contain no Polybrominated Biphenyls (PBB) or Polybrominated Diphenyl Ethers (PBDE), including pentabromodiphenyl ether (pentaDBE) or octabromodiphenyl ether (octaBDE) or decabromodiphenyl ether (decaBDE). Our products do not contain lead, cadmium, mercury or hexavalent chromium in concentrations above permitted limits.

CMOSIS Germany GmbH does not add any of these hazardous substances to the products, nor purchase any products which contain these substances in excess of the permitted limits.

To the best of our knowledge, the raw materials we use for production do not contain any of these substances. However we do not carry out analysis, but rely on the declarations of our suppliers.

This statement is valid for assembled image sensor products manufactured by CMOSIS Germany GmbH. This statement is not valid for prototypes and products for evaluation purposes.

Yours faithfully

CMOSIS Germany GmbH
