

About ams OSRAM

The ams OSRAM Group (SIX: AMS) is a global leader in innovative light and sensor solutions. As a specialist in Digital Photonics, we combine engineering excellence with cutting-edge global manufacturing to offer our customers the broadest portfolio of digital light and sensing technologies.

“Sense the power of light” — our success has ever since been based on a deep understanding of the potential of light. For 120 years, we have been developing innovations that move markets: from automotive applications and industrial manufacturing to medical and consumer electronics.

In the anniversary year of the OSRAM brand, around 18,500 employees worldwide are working on pioneering solutions alongside societal megatrends such as smart mobility, artificial intelligence, augmented reality, smart health, and robotics. This is reflected in around 12,000 patents granted and applied for.

Headquartered in Premstaetten/Graz (Austria) with co-headquarters in Munich (Germany), the group achieved EUR 3.3 billion revenues in 2025 and is listed as ams-OSRAM AG on the SIX Swiss Exchange (ISIN: AT0000A3EPA4).

Powering advanced technologies for:

- Visualization
- Illumination
- Sensing

Unique portfolio of key components:

- Emitters
- Sensors
- Optical micro-modules
- Integrated circuits & algorithms

Our markets:

- Mobility
- Industrial
- Lighting
- Medical / Health
- Mobile & Wearables

Building a sustainable tomorrow with light and sensor solutions

ams OSRAM is committed to creating sustainable value and improving lives with optical solutions.

We are driving sustainability with clear focus and ambition.
Our major targets:**Diversity target:** 25% women in management positions by 2026.**Climate target:** Carbon neutrality for own operations by 2030.

External recognitions confirm our engagement – FY 25/26:
