1 LEDriving® HL

Good, better, best: an upgrade for every desire

Impressive in terms of performance, design and quality - OSRAM LEDriving® HL lamps for high and low beam headlights offer a convenient solution to upgrade your car with superior brightness and cool white light that not only increases visibility, but also improves styling with a more dynamic look. These top-quality LED replacement lamps are equipped with the latest technology. With the wide range of offered solutions, everyone finds the best fit whether that's easy installation and affordability, broad compatibility or high-performance upgrades.

Very compact LED:

Replacements for conventional high and low beam lamps.

Color temperature of up to 6 500 K.² Better visibility thanks to daylight

For precise conditions please refer to www.osram.com/am-guarantee.2

LEDriving® HL **EASY XEN**

OSRAM's first Plug & Play LED replacement for HID with up to +180% more brightness.1

Features

- Same geometry as original HID
- CANbus free²
- Up to +180% more brightness¹
- Optimized high-speed fan ensures active cooling
- Premium OSRAM quality

Benefits

- High compatibility with plenty of car models
- Easy Plug & Play installation³ no additional accessories needed
- More light allows to recognize obstacles and hazards sooner
- Higher performance and high-level light output thanks to maximized heat dissipation
- Long lifetime

LEDriving® HL ALLSEASON

OSRAM's first ALLSEASON LED retrofit lamp with switchable color temperature from 6 000 K Cool White to 2 700 K Warm White.

Features

- Switchable light color from Cool White to Warm White (from 6 000 K to 2 700 K)
- CANbus free¹
- Top OSRAM technology provides optimized beam pattern
- Improved thermal management technology with integrated active cooling
- Premium OSRAM quality

Benefits

- The daylight effect of the 6 000 K makes obstacles and hazards more visible on the race track, the yellow light of the 2 700 K improves visibility in poor weather conditions (fog, rain, snow, etc.) and creates a stylish old-fashioned look in classic cars
- No error messages in board computers¹
- Reduced glaring thanks to an optimized light distribution
- High speed fan ensures maximized heat dissipation for more powerful performances
- 5-year guarantee²

Learn more about OSRAM LEDriving® replacement lamps¹

Frequently asked questions (FAQ)

What are the benefits of LED lamps? LED lamps offer a multitude of advantages, including their distinctive cool white light, which gives cars a modern look. Thanks to their daylight effect, they ensure better visibility. More light allows to recognize obstacles and hazards sooner. In addition, they are characterized by their long lifetime and high energy efficiency compared to conventional lamps.

What are the legal risks when using LEDriving® replacement lamps? These products do not have ECE approval and must not be used on public roads in any exterior application.
Public roads use leads to cancellation of operating license and loss of insurance coverage. Several countries forbid sale and use of these products.
Please contact your local distributor for further information.

Can LEDriving® replacement lamps be used for RHD and LHD cars?

4

Are the LEDriving® HL lamps compatible with all headlight systems with conventional lamps? LEDriving® HL high and low beam lamps do have limitations in terms of compatibility. Check www.osram.com/ledcheck for vehicle compatibility.

Is replacing a traditional lamp with an LED difficult? All OSRAM LEDriving® HL EASY as well as OSRAM LEDriving® SL lamps are Plug & Play solutions. The other OSRAM LEDriving® HL high and low beam replacement lamps f.e. LEDriving® HL INTENSE NXT or LEDriving® HL ALLSEASON can be easily installed with an adapter and/or caps.²

Do I have to observe anything when handling LED lamps?

LED lamps are significantly more robust than conventional lamps and are therefore easy to handle. You only have to avoid touching the LED chips as they are heat-sensitive.

The LED lamp does not turn on after installation.

How do I fix this problem?
Check the lamp's polarity
and its contacts for corrosion.
If your LED lamp does not turn
on, you probably need to:

- Remove the LED lamp from the housing
- Rotate the lamp by 180°
 Put it back in the housing
- Make sure the LED is on³

8

What are the specific benefits of LEDriving® replacement lamps? In addition to the general advantages of LED lamps, LEDriving® replacement lamps provide benefits that you only find at OSRAM:

- OSRAM quality control
- Longer lifetime thanks to optimized heat management systems
- OSRAM guarantee⁴
- Continuous high-performance light output
- High color temperature & homogeneous light distribution
- Perfect fit
- Easy Plug & Play installation
- Easy-to-reach customer service

¹ These products do not have ECE approval and must not be used on public roads in any exterior application. Public roads use leads to cancellation of operating license and loss of insurance coverage. Several countries forbid sale and use of these products. 3 LEDriving® HLM

Maximum visibility

The OSRAM LEDriving® forward lighting lamps for motorcycles open up new options for adapting motorcycle lighting to individual requirements with innovative light sources. The OSRAM LEDriving® HLM EASY LED lamps offer high efficiency, performance and design. Having the right lighting plays an important role in safety, especially for motorcycles and scooters. In the dark, motorcycles are more difficult to see than cars and motorcyclists need 100% reliable lighting that ensures optimum illumination of the road and extend the time available to react.

Very compact LED:
Replacements for conventional

high and low beam lamps.

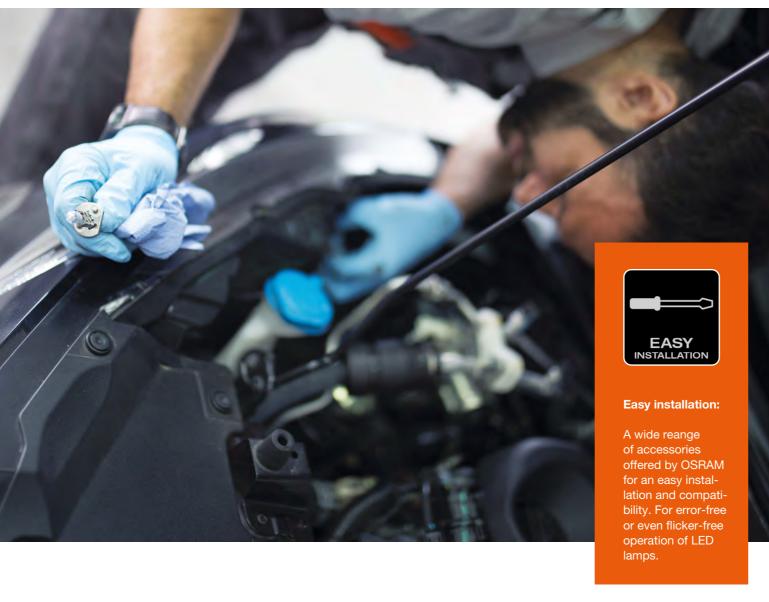

Cool White:
Color temperature of up to 6 500 K.²
Better visibility thanks to daylight

Easy Plug & Play installation: Allowing a high compatibility and an easy installation.

¹ Compared to minimum ECE R112. ² Please check for the concrete types.

¹ Please check for the concrete types. ² Compared to halogen lamps.

LEDriving® ADAPTER

Features

- Fixes H7-LED lamps
- Fits for vehicles types with H7 adapter
- Tight manufacturing tolerances for correct position of the H7-LED lamp

Benefits

The mounting brackets offer an easy installation and compatibility for a variety of cars.

- Ensure precise light distribution from the H7-LED lamp and enjoy the benefits of LED lighting
- Replaces the original H7 adapter
- Proven OSRAM quality for greater customer satisfaction with a 3-year guarantee¹

LEDriving® CAP

Enables the installation of the H7-LED lamps. Replacement of original cap in OSRAM quality.

- Enables the installation of the H7-LED lamps
- Mechanical fit and protects headlight system
- System component for H7-LED installation

Benefits

- Replacement of original cap
- Enjoy the benefits of LED lighting
- Proven OSRAM quality for greater customer satisfaction with a 3-year guarantee1

LEDriving® SMART CANBUS

Features

- Error message free
- Individual vehicle testing approved by official authorities (KBA)
- High-quality aluminum housing and black anodized surface with IP protection class IP54

in the on-board system are avoided.

Benefits

Some vehicles report a fault in the exterior lighting when LED lamps are used. With the OSRAM LEDriving® SMART CANBUS series, potential error messages

- Potential error messages in the on-board system are avoided
- Convert from halogen lamps to LED lamps with original OSRAM accessories
- Proven OSRAM quality for greater customer satisfaction with a 3-year guarantee1

LEDriving® **ERROR CANCELER**

Some vehicles report a fault in the exterior lighting when LED lamps are used. With the OSRAM LEDriving® SMART CANBUS series, potential error messages in the on-board system are avoided.

Features

- Error message and flicker free
- Individual vehicle testing approved by official authorities (KBA)
- Robust component

Benefits

- Potential error messages in the on-board system are avoided
- Convert from halogen lamps to LED lamps with original OSRAM accessories
- Proven OSRAM quality for greater customer satisfaction with a 3-year guarantee1

LEDriving[®] **CANBUS CONTROL UNIT**

The LEDriving® CANBUS CONTROL UNIT serves as a bypass of a vehicle's lamp failure detection system when using a LED retrofit lamp.

Features

- Error free Prevents error messages in board computers during failure detection
- Click connection thanks to faston terminals with fix wiretap connectors
- Individual vehicle testing approved by official authorities (KBA)
- Robust component

Benefits

- Enjoy full benefits of your LED upgrade by replacing your conventional lamps
- Removable installation by fixed clips
- Convert from halogen lamps to LED lamps with original OSRAM accessories

17

- Proven OSRAM quality for greater customer satisfaction with a 3-year guarantee1
